

COSMETIC INSIGHTS: Navigating Cosmetics Trends and Consumer Insights With Tableau

TEAM ID	SWTID-2026-8806
PROJECT TITLE	COSMETIC INSIGHTS: Navigating Cosmetics Trends and Consumer Insights With Tableau
MAX MARKS	4 MARKS

2.3 – Brainstorming

During my **short-term internship**, I worked on a project titled **“Cosmetic Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau.”** The project aimed to analyze consumer behavior, market trends, and purchasing patterns in the cosmetics industry using **Tableau** for data visualization.

The cosmetics industry changes rapidly due to **social media trends, beauty influencers, customer preferences, and product innovation**. This project focused on studying factors affecting customer decisions such as **product reviews, brand trust, pricing, discounts, and product effectiveness**.

Using an **Empathy Map Dashboard**, I analyzed what customers **see, hear, think, feel, say, and do** before purchasing cosmetic products, helping to understand their expectations and buying behavior.

Through this internship, I gained knowledge in **data analysis, Tableau dashboard development, consumer behavior analysis, and data visualization techniques**. This project showed how data-driven insights can help businesses improve decision-making, customer satisfaction, and market strategies. ✨
