PROJECT TITLE	COSMETIC INSIGHTS: NAVIGATING COSMETICS TRENDS AND CONSUMER INSIGHTS WITH TABLEAU
MAX MARKS	3 MARKS

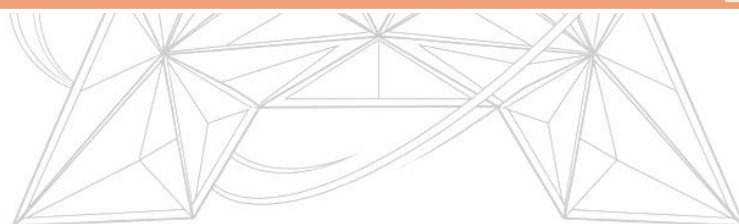

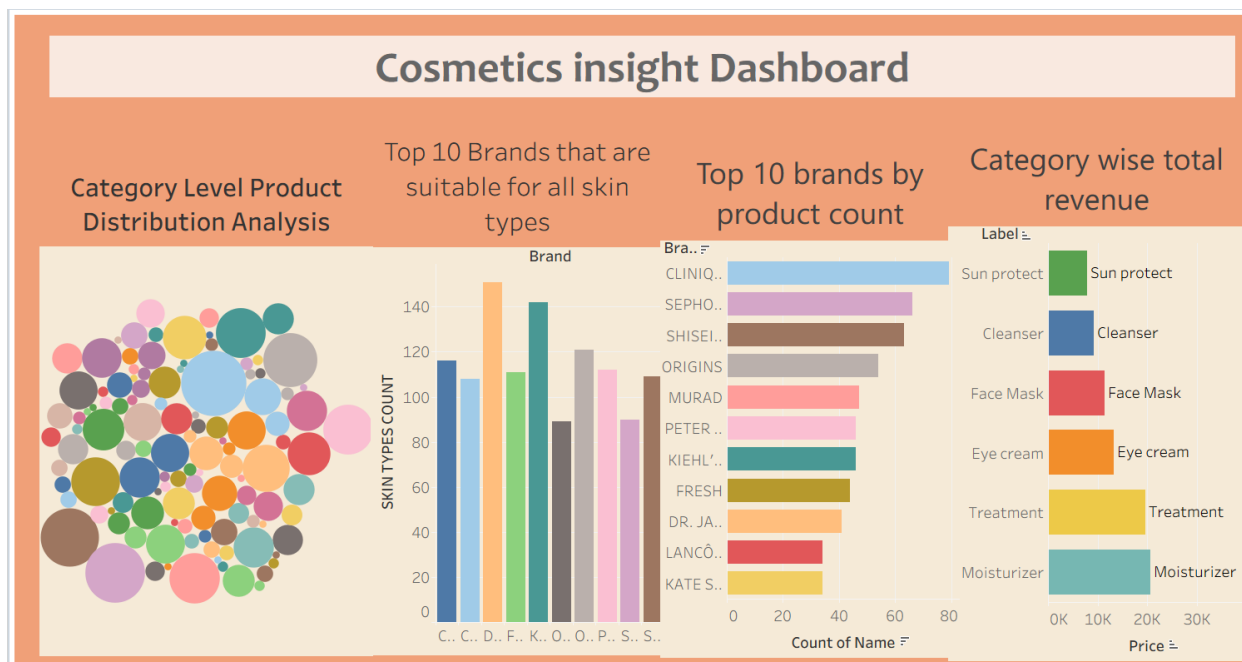

6.4 – Dashboard

Steps:

DASHBOARD-01:

1. The New Dashboard icon is located at the bottom of the screen. It resembles the picture of a window pane with a "+" sign.
2. Select the Size section from the left-hand side panel and choose width-2000 rather than Fixed size so the dashboard is adapted to the size of your screen.
3. Find the Sheets section and drag all your graphs into the dashboard by hovering over their names; you will be offered to place them side-by-side or stacked. Select Floating when dragging.
4. Click the text(for title) checkbox at the bottom left corner of the dashboard and after entering title just adjust it to enter the name of your project, e.g., "Cosmetics Insights Dashboard".
5. Double-click on any graph and click on the down arrow. From there, select Edit Colors to choose a consistent set of colors for all graphs.
6. Simply right-click the dashboard canvas, choose Format Dashboard, and select the color of the dashboard background.
7. When putting together the dashboards, make sure you have created these charts on separate worksheets:
8. Category wise Product distribution analysis: This is a packed bubble chart with the brand distribution details.
9. Top 10 Brands that can be used for all skin types: This is a bar graph with color bars indicating SKIN TYPES COUNT.

- Top 10 brands with maximum products: This is a bar chart representing the number of Name by brand.
- Category wise total revenue: This is a horizontal bar chart indicating price based on the product category label.

DASHBOARD-02:

- Click on the “New Dashboard” button, which is a window icon with a + symbol.
- Rename the tab according to your project.

3. In the left pane of the Dashboard, under “Size,” choose “ Desktop,” or alternatively, change the size to make a wide and rectangular surface area.
4. For the peach color
5. Underneath the left sidebar, switch from Floating to Tiled .
6. Select the layout container named Vertical from the list of objects and place it on the empty canvas.
7. Next, drag the Text element into the Vertical layout and put it near the top.
8. Edit the text using the text editor tool by typing Cosmetics Insight Dash Board; then, center it, bold it, and resize the text.
9. To create the cream colored box below the text element:
10. Select the text element; select the Layout tab on the left side; set its background to coloured.
11. While assembling the dashboard, ensure that you have created the following four worksheets:
12. Brands Having Average Prices at This Rate (Multi-colored bar chart on the far left).
13. Category-Based Distribution of Combination Skincare Products (Bubble chart, second from the left).
14. Top 10 Brands along with Cosmetics Count (Pie chart, third from the left).
15. Product Distribution Based on Category (Horizontal bar chart on the far right).
